THINK TANKS TWINNING INITIATIVE BACKGROUND:

The EU-India Think Tanks Twinning Initiative (TTTI) was launched under the framework of EUPOP India project with the support of the European Union in 2015 to promote better understanding and stimulating joint research between leading Indian and EU think tanks. The first edition of the TTTI was carried out between 2015 and 2017, and the second one between 2017-2020. Building on the results of the previous two editions of the initiative, TTTI 2020-2022 will aim at consolidating EU-India think tank networking and exchanges and seek to contribute to strengthening of the EU-India relations.

EU-INDIA EXPERTS' WORKSHOP

EU-India experts' workshops are held as hands-on discussions on the main global political and security developments with impact on the EU, India, and on EU-India relations. Three workshops are tentatively planned in the TTTI 2020-2022 edition.

SECOND EU-INDIA EXPERTS' WORKSHOP IN 2021

Experts are invited to submit an original policy paper with recommendations of **1500-1700 words**, on one of the following topics:

- 1) Enhanced EU-India Multilateral cooperation:** How could the EU and India partner in defending, strengthening and promoting effective multilateralism and the rules-based international order, with the United Nations (UN) at its core? Which concrete cooperation mechanism should be proposed in New York, Geneva and Vienna? Examples of/comparison with other successful partnerships. Practical recommendations on how to strengthen EU-India cooperation to build back better and achieve the Sustainable Development Goals, based on human rights and inclusive and sustainable growth. The potential for closer cooperation on promoting peace and security, including regarding United Nations peacekeeping operations.
- 2) EU-India and the Indo-pacific:** The potential for closer and more systematic cooperation between the EU and India in the Indo-Pacific, and possibly also with third countries (e.g. US, Japan, Australia, South Korea, Vietnam, Indonesia). The centrality of ASEAN to the Indo-Pacific region and the way forward in engaging the ASEAN countries. The future and usefulness of the Quad, seen from an Indian perspective, and the potential for closer involvement of third parties – like the EU – in the workings of the Quad.
- 3) EU-India Connectivity Cooperation:** Which thematic priorities for a possible future comprehensive connectivity partnership between the EU and India, in the four sectors (digital, transport, energy, people-to-people) in the Indo-pacific region? How can

engagement in these sectors benefit both sides? Practical recommendations to overcome obstacles to promote private investment. Identify innovative solutions for the EU and India to incentivise sustainable private financing. Which initiatives and which geographic priorities for a comprehensive connectivity partnership between the EU and India in the Indo-Pacific region (South Asia, South East Asia, East Africa) together with Central Asia?

Experts are invited to submit a policy paper on ONE of the three above mentioned topics, addressing one or more guiding points listed below each topic.

The workshop will be conducted via webinar and will be structured in 2 parts:

(a) Virtual interactive exchange with EU representative/s for 10 selected participants of the Experts' Workshop on the state of play and on current core issues of relevance in the EU-India relations. The exchange will be held prior to the workshop in March 2021.

(b) Closed-door discussion will be organized in a virtual manner among the authors of the 10 selected policy papers. The papers, along with their recommendations, will be presented by the authors, and discussed among peers, and with other relevant stakeholders. The virtual event is expected to take place in mid-March 2021.

Participants will be informed of the precise date and time of the virtual exchange in due time.
